

# **Fire, Health and Safety**

**Mike Mircic**

Our annual in-house Fire and Safety Check took place on 16<sup>th</sup> November, 2017. I am pleased to report that all our Fire Alarms and Fire Extinguishers are in good order and are regularly tested. We also have periodical testing on our electrical equipment.

Any health and safety issues that come up during the year are looked into and action taken where necessary. However, due to the excellent maintenance skills of those within our congregation, in addition to outside tradesmen which we have to employ where necessary, the premises remain at a good and safe standard for its users.
